

# Sustainability Report

Sustainability Report 2025

BP Med Limited | United Kingdom

Last Updated: May 2025

At BP Med Limited, sustainability is integral to our mission. We aim to reduce our carbon footprint, operate responsibly, and promote a healthy environment through our practices and supply chain.

## Highlights:

- Initiated digital transformation to reduce paper use
- Began sourcing from low-emission logistic partners
- Set 2026 target to launch full Carbon Reduction Plan
- Recycling programs initiated at all UK offices

## Future Goals:

- Achieve 30% emissions reduction by 2030
- Achieve low-carbon operations by 2035

We are committed to improving our sustainability performance every year.

Signed,

Quisam Ilyas

Director
